

AFTERNOON DISPATCHES

A Disorderly Speaker Creates a Furor in the House.

Gen. Hancock Reported to be the Choice of Democrats for Governor of Pennsylvania—Decorated Day.

Associated Press Dispatches.

WASHINGTON, May 30.—In the House today a scene occurred this morning. During the discussion growing out of the ruling of the Speaker yesterday on the question in the contested case, Springer was declared out of order. Indignant calls to order came from the Republican side, and continued, amid great excitement and confusion, until the Speaker said that the Sergeant-at-Arms would force him to desist. The Democrats gathered about to encourage him, and many Republicans angrily protested against Springer's course. Springer defiantly declared that he would not be taken from the floor, and Humphreys said that he would respect himself. The Speaker said he could very well afford to allow Springer to make improper remarks about him, but not to destroy the dignity of the House by his conduct. Knott supported Springer, although he respected the Speaker as highly as anyone. The Speaker maintained that the Clerk acted properly, and after further talk, a motion to correct the Journal was rejected by 134 to 89. The Democrats tried to filibuster, but a quorum appeared, and Miller began his speech on the contested election case of Mackey vs. O'Connor. The Democrats will submit a resolution, that the Speaker's ruling, refusing to entertain Springer's appeal yesterday, was arbitrary.

REJECTION CASE SETTLED BY DEATH.

In the election case of Smith against Shelby, in the Fourth District of Alabama, the contestant having died, the majority report of the Committee on Elections will recommend that the seat now occupied by Shelby be declared vacant.

PENNSYLVANIA REPUBLICAN CONVENTION.

The Republican State Convention has been called to reconvene at Harrisburg on June 21st, to nominate a Congressman at large for Pennsylvania.

GEN. HANCOCK FOR GOVERNOR.

It is reported that Gen. Hancock is to be nominated for Governor of Pennsylvania by the Democrats. General Hancock was the guest of Jere. Black at York, Pa., last Saturday and Sunday. A prominent Republican from Harrisburg, now in this city, says that there was a conference at Black's house of many Democratic leaders in the State, and it is believed that the object of the conference was to nominate Hancock for Governor. This gentleman says that Hancock's military record would disqualify him for Governor, and that the fight between the Republican factions would make his election pretty sure. Once elected Governor for Pennsylvania, it is believed he will be in a straight line for re-nomination for President.

THE STRUGGLE IN THE HOUSE.

In the House, after a long discussion in the case of the contested election, the Speaker made a decision sustaining the point of order that dilatory motions cannot be made to prevent a change of rules. Randall appealed from the decision of the Chair, and Reed moved to lay the appeal on the table. Yeas, 150; nays, none. After the announcement of the vote, Cox, of New York, presented a protest signed by over one hundred Democratic members against the ruling of the Speaker. The protest was not received to go upon the Journal, but was read as part of Cox's remarks so as to be printed in the Congressional Record. The report of the Committee on Rules was soon after adopted: Yeas, 150; nays, 2. At 6:45 the House determined to proceed to the consideration of the contested election case. Miller took the floor to open the debate, and then the House adjourned until to-morrow.

COAST DISPATCHES.

Decorated Day—Big Fire at Willows, Colusa County.

SAN FRANCISCO, May 30.—Dispatches from New York, Washington, Chicago and other large cities of the East, as well as from many small towns, state that Decoration Day is being generally observed in an appropriate manner by the closing of the banks, offices, a general suspension of business, the displaying of flags at half-mast and by processions and decoration of graves.

DECORATION DAY AT THE BAY.

Decorated Day was observed in the usual manner. Minute guns were fired during the morning. At 9:30 the Garfield, Lincoln and Geo. H. Thomas Posts of the Grand Army assembled, and under the escort of the National Guard, took up their line of march for the cemetery. Beside the military and floral cars with memorial designs, a feature of the procession were the Mexican Veterans who participated in the parade. At Van Ness avenue the National Guard left the column and were reviewed on the avenue by Governor Perkins, General Barnes and their staff. The remainder of the column proceeded to the cemetery, where, after appropriate exercises, the graves were decorated, a battery of artillery firing minute guns. Business is generally suspended.

WILLOWS, COLUSA CO., PARTLY IN ASHES.

SAN FRANCISCO, May 30.—A dispatch from the railroad station at Willows, Colusa county, says the entire town has just been burned. Only the bank and one business house saved. No particulars.

PARTICULARS OF THE FIRE.

WILLOWS, May 20.—A fire broke out here about two o'clock this morning in the rear of the Central Hotel. A strong north wind was blowing, and it was impossible to impede the progress of the flames, which swept through the business part of the city with the south of the hotel. The losses are numerous, and many small amounts, and will probably aggregate one hundred and seventy-five thousand dollars. Insurance covers about one-third. During the progress of the fire an explosion of gun powder and cartridges

New Publications.

THE PETTIBONE NAME. By Margaret Sidney. The V I F Series. Boston: D. Lothrop & Co. Price, \$1.25.—If the publishers had offered a prize for the brightest, freshest and most brilliant bit of home fiction wherewith to start off this new series, they could not have more perfectly succeeded than they have in securing this, "The Pettibone Name," a story that ought to create an immediate and wide sensation, and give the author a still higher place than she now occupies in popular esteem. The heroine of the story is not a young, romantic girl, but a noble, warm-hearted woman, who sacrifices wealth, ease and comfort for the sake of others who are dear to her. There has been no recent figure in American fiction more clearly or skillfully drawn than Judith Pettibone, and the impression made upon the reader will not be easily effaced.

Most of the characters of the book are from life, and all alike bear testimony to the author's keenness of observation and skill of delineation. Taken altogether, it is a delightful story of New England life and manners, sparkling in style, bright in incident, and intense in interest. It deserves to be widely read, as it will.

Rocky Fork. By Mary Hartwell Catherwood. Boston: D. Lothrop & Co. Price, \$1.50.—The author of "Rocky Fork" has within the past three years made herself a place among American novelists. There are few who possess her peculiar talent of telling a story in a natural and effective manner, with his hot temper and quick tongue; Samantha Scarritt, the village dressmaker, whose sharp speech and love of gossip are tempered by a kind heart and quick sympathy, and the irrepressible Bobby Jane, all are from life, and all alike bear testimony to the author's keenness of observation and skill of delineation. Taken altogether, it is a delightful story of New England life and manners, sparkling in style, bright in incident, and intense in interest. It deserves to be widely read, as it will.

THE PEOPLE'S MONEY.

A few days since we had the pleasure to speak of one effort made by our Board of Supervisors to lighten the burdens of a tax-ridden people, in the circular issued to Justices, discouraging prosecutions under the Sunday law, so-called. To-day we feel constrained to mention another act of that body which is so far from being, in appearance, economical, that we would suggest it would be well for some one to "rise and explain" why, as per the rumor we hear, the public money is being thrown away and wasted. We feel inclined to do this in the interest of the people, many of whom find it hard to pay the annual assessments made upon them to defray the current expenses of the county, and in the interest of some who cannot pay at all, and yearly see their property sold under the hammer. The cause of this people it is our pleasure to champion, and it is a duty we perform cheerfully in calling our public guardians to account for this disregarding the interests of their constituents.

At the May meeting of the Supervisors, Dr. W. W. Ross, by letter, made a proposition to the Board to act as Superintendent of the County Hospital, and attend to the duties of County Physician, with some other cares, for the sum of one thousand dollars per annum. The reception this proposition met with we will tell in the language of the Supervisors' record book: "On motion of Supervisor Hannon, the application was denied and present incumbent retained for one year, or for such time as the pleasure of the Board may seem fit." This it says, and nothing more. The price at which the Doctor proposed to serve the county it was not deemed worth the while to make a record of, and the uncharitable and fault-finding may say, now that it is discovered that the fact of the rate at which the Doctor proposed to serve his fellow-citizens is virtually suppressed, that there is a job in it—that money is being thrown away upon some party's suffering. We are informed that the present County Physician and Superintendent of the Hospital drew the sum of twenty-two hundred dollars per annum from the county treasury for his services—a sum twelve hundred dollars in excess of that at which Dr. Ross offered to do the same work. Now what to us seems strange, and what the people will demand to know and have a right to know is, why is the rule of fair play in this case violated, and why is the money, toiled for so hard by a poor people, wasted? In all things else the trade goes to the lowest bidder, quality and conditions being equal. Why was the rule departed from in selecting the physician? It cannot be on account of the superior qualifications of the present incumbent, we should suppose. Dr. Ross is a regular graduate of long practice, and stands well among his co-laborers, patients and the public. It is no disparagement to Dr. Hannon, who is a worthy gentleman, an able practitioner, and of whose good qualities and ability we have an exalted opinion, to say he is not the superior of the other applicant for the office he holds, and therefore the lack of fitness cannot be a valid excuse for so summarily and almost rudely thrusting aside a proposition fraught with so much benefit to the people. With our present light we can draw no other conclusion than that the present incumbent was re-elected to the position of County Physician on partisan grounds exclusively, and for the pleasure of seeing the poor and infirm pillaged and bled by a Democratic doctor, the tax-payers of this county—a majority of whom are Republicans—must pay twelve hundred dollars per annum. We shall be glad to be apprised of any facts that may change our opinion, for we would not do the Supervisors a wrong, and shall most cheerfully retract anything herein said when advised we are in error.

A MISSIONARY.

At a meeting in Chicago of the Baptist Home Mission Society, Rev. P. H. Heuson said:

The Chinese question was one that affected civilization, and no embargo from Washington could shut off immigration through the Golden Gate ten years. The bill was a failure. He had no faith in Congress and no faith in common schools unless their teachings were impregnated with Christian principles.

The proper place for Heuson is that of a missionary to Dupont street. He should be compelled to reside there and breathe its nastiness until such foolishness is worked out of him.

DEMOCRATIC HARMONY.

Daily we receive fresh evidence that there is rattling among the dry bones of the skeleton of Democracy. The last probability of a unity of sentiment that promises success is destroyed. The disintegration and discord is going on in every county. We note it in Los Angeles, Santa Barbara, Ventura and San Luis Obispo counties, particularly. The struggle is mainly over the Governorship, but the contest between Judges Ross and Sepulveda for the position held by the former, is also an element. Of this we note there was a sprinkling of a fight at the meeting of the Santa Barbara Democratic Central Committee recently, which resulted adversely to the Sepulveda interest. Our genial fellow citizen N. A. Covarrubias, Esq., was voted out of the Democratic Committee of Santa Barbara, because a non-resident. His place and that of the vacancy caused by the death of the late Alfredo Den, were filled by the "clique" adverse to Sepulveda, so of course there is war to the knife in that county. Without more particularizing, we shall assume that the divisions are so wide-spread and deep that a pacification is quite improbable—nay, impossible—and the Republican candidates will float into office as fishers along the ocean's shore drift homeward on the evening flood tide.

And why should the Democracy win the election forthcoming? Has that party anything in it which promises for the good of the State? Is it par excellence the friend of the people? Hearsay, it is believed, represents the fossilized Duke Gwin, and Judge Terry, of unsavory memory. Has it ever been shown that they are friends of this people, more than others? We think not, and the people think not, and hence there is a coldness unto the clammy sweat of death upon the brow of the expiring embodiment of Democracy.

HITCHING PLACES.

When a city attains to the size and commercial proportions which Los Angeles has reached, it becomes important to adopt sanitary regulations in its hamlet stage of existence. If such rules are not adopted, the penalty will surely come. Our population is larger now than last spring, and the traffic in our thoroughfares greatly in excess of what it has ever been, but our sanitary system has not kept pace with our increased commerce, and now when we are just on the verge of the hot season, our streets present an appearance which, to put it mildly, is ominous. We do not wish to shock the sensibilities of our readers by a too plain description. They can look for themselves. The subject is too serious for a jest, else we might suggest buzzards; besides, these have been tried elsewhere and found inadequate, except to pick up a few dead rats. The chain gang hardly fills the bill, as they no sooner go their rounds than the dense lines of teams hitched along our principal streets reduce them again to their normal condition of filth.

Is it not time that an ordinance were passed prohibiting this hitching of teams in the public highways, and assigning a suitable quarter for the purpose? The present blocking up of the streets we can stand; the manure heaps are too much for us.

CHURCH MUSIC.

We like the remarks of Rev. John Coyle, of Stockton, on the subject of church choirs, and without saying anything more about it will introduce an extract from his discourse:

"We might as well expect to do our praying by proxy as our singing by proxy, for we can as sincerely worship God in our songs as in our prayers, and that kind of worship may be just as acceptable. Sacred song has always entered largely as an element of worship in the Jewish and Christian churches. Of the 38,000 persons that constituted the tribe of Levi 4,000 were consecrated to the department of music. At one time in David's reign there were twenty-four bands of Levite musicians rotating in public worship, each numbering 100 musicians. In Solomon's time there were 300,000 trumpets and 40,000 harps in the Temple treasury. At the dedication of the second temple the multitude listened to 120 cornet players without complaint, while some people are fastidious in these modern days that they profess to hear the devil in a small cabinet organ introduced in the church to assist in the singing."

The great want of the churches to-day is strong, lusty, congregational singing. One devotional hymn led by a strong choir is worth fifty scientific performances, the music of which the people do not comprehend, nor do they understand a word of the hymn that is being sung by these technical performers.

"Who," asked the speaker, "can write the history of 'Come Thou Fount of Every Blessing,' composed by Robert Robertson, or 'Rock of Ages,' by Toplady, or 'All Hail the Power of Jesus Name,' by Perrenot, or 'Come ye Sinners Poor and Needy,' by Joseph Harris, or 'Nearer, My God, to Thee,' by Sarah Fowler? We do know that there will be any preaching or praying in Heaven, but we do know that there will be a good deal of singing. The gates have swung ajar once or twice, and the apostles have heard the melody."

PERSONAL MENTION.

Sheriff Rowland is in San Francisco. Councilman Schieffelin goes to San Francisco to-morrow.

A. E. Pomeroy is in San Diego, and is expected back Thursday.

Rev. C. H. Everett and family, of Chicago, are at the Kimball Mansion.

E. F. Spence, President of the First National Bank, leaves to-day, with his wife, for a three months' visit to Ireland.

W. G. Kerckhoff and brother are on the passenger list of the Orizaba leaving San Francisco yesterday morning for Wilmington.

MORE ABOUT CITY WATER.

"Regard" seems to have the Under the Argument.

Editorial Times:—The agent of the Felix ranch, evidently seeing the hopelessness of fighting the "Rule of Three," as laid down by our now defunct District Court, gives away his case and concedes that the water was not apportioned to the Baldwin according to their irrigable area—one would say not! If every four hundred acres along the whole course of the Los Angeles river were to be awarded eight cubic feet of water per second, the Colorado would hardly furnish water enough! but the ranch had formerly needed and used that much.

Now I have no idea that the gentleman would intentionally misrepresent the facts of the case. But he is merely off—he is mistaken—he lies under a mistake. There are plenty of people here who know that the Felix ranch owners never irrigated two hundred acres of land; in fact in their first suit they only claimed that they irrigated 100 acres. This claim of more than that is an afterthought. Indeed this whole pretense of claiming the right to use the water of the river or any part of it independent of the city's chargeable view we can take of it is that it was a mistake—an egregious mistake to be sure, but still a mistake, from whatever point we look at it. From the stand point of the reasoning of the Court, it was a palpable and obvious mistake, as I showed the other day. If we study it from another and practical standpoint it is equally so.

Experience has demonstrated that one head of water will irrigate ten acres of land in twenty-four hours. According to their own first very liberal estimate of 150 acres, they were only entitled to fifteen heads, equal to one whole head in each month, instead of sixty full heads of twenty-four hours each per month! Why, if coupled with this astounding award the Court had ordered, in order to guarantee to the ranch the full amount of eight feet perpetually, that it should build a dam at the lower end of its irrigable land, the owners would have howling louder than any of us who live below the dam, at having their land judicially dammed in this way and turned into a cove, and their protests would have come thick and fast, and they would not stand it to have such an amount of water forced upon them by a dam site. The owners could have had a chance to mind, if left words of their agent, to "have received the full force of the decision in favor of the Baldwin" with a vengeance.

As to my name, it is of no consequence; the facts and the law are the only things that signify in this as in most discussions.

ANAHIM ITEMS.

EDITORIAL TIMES: Our share of Wednesday's unbroken rain storm amounted to one-fifth of an inch.

Our gunsmith has added another to our list of attractions—a shooting gallery. By the continuous crack of the rifle during the afternoon, we should judge the gallery was well patronized.

Our public schools will close on next Friday with the usual examinations. The term has lasted ten months.

The census returns of this district show a total of 310 children between the ages of 5 and 17 years. Our school will be entitled to five teachers—more than any other district in the county outside of Los Angeles.

The Episcopal Church, the scene of the unfortunate and fatal accident to Mr. C. B. Balch last December, has been presented with a memorial bell by the father of the deceased, a resident of Boston. The bell, which weighs 1,320 pounds, arrived last week, and will be hung as soon as possible.

We only noticed recently that your printers made the word "out" which occurred in hay item, issue of 18th, read "out," thus materially altering the sense of the phrase.

A teacher in our public schools was recently discharged from the department, upon acknowledging a charge of indecent conduct towards two girl pupils of the school. The parents of the girls made the complaint to the trustees, and they immediately charged him with the offense, resulting as above. One of our local physicians who has attended to him medically thinks that he is of unsound mind. He left here shortly after his dismissal, and we understand is now in Los Angeles.

The picnic at Santiago yesterday was not a success in point of attendance, the fact of its being given on Sunday, and that the weather was cloudy nearly all morning, deciding many to stay at home.

The Taylor Comedy Company had a very good house Saturday night, and their performance was highly spoken of. Yesterday evening their cornet band entertained the mothers of the local band and the guests of the Anaheim Hotel at the parlors of that house. Their fine music was highly appreciated, and we predict for them a crowded house to-night; they deserve it.

ANAHIM, May 29th, 1889.

Patent Flour.

Almost everybody knows of patent flour, but not every one understands what it is. Stripped of technicalities, this is about the story of its manufacture. The best flour used to be made of winter wheat. Spring wheat yielded either much less in quantity, or else so much of the bran got into the flour in its manufacture that its color was intolerably dark. The wheat would be ground out and bolted. In the refuse—the bran and middlings—would be included a large portion of the weight of the spring wheat, and this would sell more particularly for feed for horses. Now the best of flour is made of the most expensive, is made of the very refuse of the old-fashioned process. It all came of the discovery of a way to draw out the bran. Under the new process the wheat is ground about as before. The first result is an ordinary flour sold for exportation. The remainder is taken and put upon horizontal sieves, and while agitation is going on there an ingenious system of draft is rushing up through, and carries off the bran. What is left is the glutinous portion of the wheat, the most nutritious and most productive, and out of this, purified now by the drawing off of the bran, we get the new process flour. The result of the discovery of the process has been to make the poor spring wheat of Minnesota and upper Wisconsin the most valuable kind of grain.

GAS.

The cost of gas in New York is \$3.35 per 1,000 feet—in Los Angeles \$4.50 per 1,000. Edison says gas costs in New York 70 cents per 1,000, and his electric lights will bring the price of gas down to \$1 per 1,000. Would we had an Edison here.

LAST NIGHT'S DISPATCHES.

Insurance Mens Remonstrance. WASHINGTON, May 30.—Representative Page yesterday received a telegram from C. T. Hopkins, representing the insurance men to San Francisco, asking him to lay before the President the remonstrance of the insurance interest against the approval of the bill providing for the distribution of the unexpended balance of the General Land Office. The bill would return Mr. Page will comply with Mr. Hopkins' request.

PACHECO NOTIFIED.

Representative Pacheco was notified to-day that John Taylor McMillan, of Los Angeles, had won the competitive examination in his district for appointment as naval cadet. Mr. Pacheco, in accordance with the decision of the examining board will recommend Mr. McMillan's appointment.

Fatal Quarrel.

CANDELAIRIA, Nev., May 30.—Omi-zene Levine shot Joseph Ricard through the body this morning while quarrelling about the possession of some one's mule. From J. Bizar's mule Ricard died within a few minutes, but returned the fire before he expired, putting a ball into Levine's shoulder. In trying to escape Levine fell over some rocks and broke his left leg.

William B. Rodgers Dead.

NEWPORT, R. I., May 30.—Professor William B. Rodgers, President of the National Academy of Science, is dead.

Very Definite.

MONTPELIER, Vt., May 30.—The Democratic State Convention is called for June.

Indians.

TOMBSTONE, May 30.—Five Indians driving a band of fifty horses were seen about ten miles from here this morning. They were fired upon by some ranchmen, but did not seem for a fight, simply trying to get away with the stock. Three cavalry companies from Huachuca are on the scout.

Arizona News.

TUCSON, May 30.—D. D. Thompson, Manager of the Sonora Limited Railroad, and W. L. Ripley, Genl. Passenger Agent in Tucson this morning from Hermosillo. Mr. Robinson states that the road will reach Calabasas by September 15th.

Marales, Mexican Consul at this place, suddenly left his post for Mexico yesterday. The cause assigned is amours with a young Castilian widow, and to avoid trouble with the friends of the widow he skipped out. There are strong indications of rain.

Guaymas News.

TUCSON, May 30.—A Star special from Guaymas, via Hermosillo, dated the 29th inst., says: A new fountain is being built on the Plaza de Armas. The water is furnished by the Railroad Company's pipes.

The new factory of Wm. Hooper & Co. is built and the machinery is being placed in position. A brick ice house is in process of erection, all to be running in twenty days. This firm has over a million feet of lumber about for this place and over two million engaged awaiting transportation. Selwain & Co. have ten men and teams engaged making a new road out to Ranchoito, where the factory is, two and a quarter miles from the railroad depot, 345 feet in length, and covering with tan bark, making a delightful driveway out of town and an easy road for hauling lumber. From a reliable source we learn that there will be a line of steamer from here to Australia on the completion of the Sonora and Atchison and Topeka Railroad Company connecting with New York, New Orleans, Boston, Galveston, South Hampton, Liverpool, Hamburg and South America.

Superintendent D. B. Robinson made the trip in six days and twenty minutes over these unfinished roads on his last trip to Boston. Mrs. Robinson and family leave for Boston to-day over this route.

The schooner G. C. Perkins, Kerian master, sailed on the 18th inst. for Port Townsend in ballast. The bark Wm. James, Kerian master, 345 tons burthen, from New York, arrived on the 16th inst. with railroad material.

The schooner Sade F. Callier, Larsen master, is discharging at the Railroad Company's wharf.

Y. M. Leveier is building a steam tug to be used with his lightering business. It is 44 feet long, 10 feet beam, and will have ample power.

The Railroad Company at Hermosillo have built a splendid depot of wood, nicely painted, cool and airy offices.

Lots in this city, which a short time ago were covered with brush and fence, in the vicinity of the railroad depot, are now held in some instances up to ten thousand dollars, and all have assumed a market value.

The streets are planted with orange trees.

The Water Works Company are building a reservoir on Marble Mountain to supply the city with pure well water.

The new State University, to be built in the Alameda, will be a fine structure. Situated as it will be among orange groves and other tropical fruits, with most beautiful shade trees, fine lawns and country property, and water, it will no doubt, under the able management of Governor Ortiz, prove a great advantage to the State of Sonora.

Most of the wheat raised in this State is converted into flour by mills in Hermosillo and vicinity, making a good article of flour and supplying mostly all of the western coast of Mexico.

A Collision.

A special freight train going north ran into freight train No. 23 coming south, about seven o'clock Monday morning at the mouth of tunnel No. 1 on the Tehachapi mountains, making a total wreck of all four engines. Three of the engines were seriously injured, also two firemen and a carpenter.

Fruit Growers Meeting.

The fruit growers of the valley met at the Pavilion last Saturday and after consultation the same will soon commence with a capacity of 5,000 cases per day. Three car loads of machinery have been shipped from San Francisco; the material will arrive early next week. —Riverside Press and Herald.

The re-appointment of Colonel J. J. Warner as Notary Public was quite a coming as it did unsought and unasked for. Governor Perkins did a very proper thing, and the compliment of issuing a re-appointment previous to the allotted time of expiration of the old, is appreciated by both the Governor and Mr. Warner's friends.

The Press and Horticultural of Riverside, good authority on the subject, says: "It is now time to secure orange buds for budding. It is also a good time to transplant orange and lemon trees, as the new growth has hardened and the trees recover easily from the shock received from being moved. If trees are to be moved this season the quicker the work is done now the better."

A little pleasantries indulged in with reference to Mr. Henry Glass in Sunday morning's paper—done with only the best of intentions—seems to have given offense where none was intended. It was only a labored joke over the society for the promotion of manufactures—simply this and nothing more—and not done with any intent to injure the feelings of any one. The effort to make harm of the item by designing persons falls very flat upon any intelligent ear, and is beneath notice.

DECORATION DAY AT SANTA ANA.

How it was Observed—A Large Turnout—The Procession.

Decoration Day was well observed in Santa Ana. Nearly all the better class of society turned out. The flagstaffs owned by Republicans were floating the honored flag, but sorry to say those of the Democratic order had bare poles. Our streets were as gay as on a 4th of July, and the Santa Ana brass band surprised us all. It was its first appearance in public, having been organized but a very short time; but the music was good, showing good talent and plenty of practice under a first-class leader. After marching and counter-marching through the principal streets of the town, the procession headed for the cemetery, where a platform had been prepared, an organ, seats, flags, etc., etc. The exercises were very good; a very large number of Union soldiers were beautifully decorated, and the Post with many friends then proceeded to Anaheim to hold similar services in that place and cemetery. Well done, San Diego Post, No. 17, G. A. R. of Santa Ana.

DECORATION DAY.

The Exercises Held at the Cemetery and the Hall.

An immense Throng and a Grand Procession—The Speeches made and the Graves Decorated.

Decoration Day has come and gone. Again have our people engaged in the noble exercises of doing honor to our brave but fallen defenders. Popular holidays are usually those which appeal to man's sense of enjoyment, but Decoration Day, which appeals to the sympathy, the better, the higher nature, is fast becoming as popular as well as observed as one of the holidays upon the calendar. Yesterday's exercises called forth an immense throng of people from city and country, who took part in the exercises of the occasion with great zest. Business was in a great measure suspended and more especially from noon until 6 o'clock in the evening, during which time all the prominent business houses were closed.

The order of the procession was carried out faithfully to the letter, as published in yesterday's Times. The line of march was formed on Spring street as follows: Chief of Police Henry R. King, with two policemen; E. S. Hall, Commander of Frank Bartlett Post of the Grand Army of the Republic, with his aids. The first division was under the command of Marshall L. A. Russell, and consisted of the "Eagle Corps," some thirty strong, under the command of Captain W. H. H. Russell. The boys showed great proficiency, and made a splendid appearance. They came the city band, preceding "Thirty Eight" engine company, followed by Park hose and the hooks. The hose cart of Park company was elaborately decorated.

The second division was commanded by Marshall John Davis. Confedence Engine Company, No. 2, with their blue shirts presented a neat contrast with the red shirts of the "Thirty-Eights." They were also preceded by a band. They carried a beautiful floral cordon and a miniature floral house-cart, which was deposited on the grave of George B. Firman. It was by far the most ingenious and beautiful of any of the floral designs of the day, and was gotten up by George McLean and Henry Decker.

Following was the chief attraction of the day—the Grand Army of the Republic, bearing their wreaths and crosses and banners of conquest flowers to lay upon the graves of their departed comrades. Then came four veterans of the Mexican war, the speakers of the day, the children of the Orphan's Home, the choir, a delegation of Good Templars, the Mayor and City Council, and children of the city.

The procession marched down Spring to Third, Third to Main, up Main to the plaza, counter-marched to Temple, up Temple to the speakers' stand, and then to the cemetery. Here the column opened order, and the Grand Army first marched in with their flowers and decorated wreaths of dead comrades. The grave of George B. Firman was decorated with the miniature floral house-cart, and numerous other floral offerings, as also were the graves of their departed comrades.

The meeting was called to order by T. S. Hall, commander of Frank Bartlett Post, after music by the band. Messrs. Whitney, Fiske, Forrest and Carter sang a quartette.

Adjutant Davis then read the roll-call of "Fallen Comrades," of which the following is a complete list: J. B. Smith, Company F, 146th New York. Major W. H. Kerns, Pennsylvania Volunteers. Thomas O'Connor, California Volunteers. Captain Samuel McKee, 1st United States Cavalry. F. W. Kimball, supposed United States Cavalry. John J. Behn, California Volunteers. L. Wilhardt, California Volunteers. Captain H. Jones, 9th Maine Volunteers. George A. Furman, Company H, 7th California Volunteers. Dr. R. Ryan, California Volunteers. E. T. S. Stanway, United States Army. Wm. McPherson, unknown. W. H. Scott, United States Army Volunteers. John McFadden, United States Army Volunteers. Major E. Fitzgerald, United States Army Volunteers. Dolores Elisalde, 1st California Volunteers. Diego Elisalde, 1st California Volunteers. Captain A. Sanches, 1st California Volunteers. Hilario Vares, 1st California Volunteers. Santiago Sanches, 1st California Volunteers. Hilario Ramirez, 1st California Volunteers. Capt. Alexander Bell, U. S. Army. T. S. Angell, volunteer U. S. Army. Wm. W. Williams, volunteer U. S. Army. Chas. Chaney, volunteer U. S. Army. Harris, volunteer U. S. Army. J. H. Morgan, volunteer U. S. Army. C. H. Williams, Wisconsin Volunteers. Adam Dorn, unknown. Captain J. H. Porter, unknown. William J. Ruth, Iowa Volunteers. Wm. B. Dunne, California Volunteers. W. W. Dryden, unknown. Henry F. Hill, unknown. J. R. Hewitt, unknown. Wm. McPherson, unknown. Chas. Belcher, Company H, 65th Missouri Volunteers.

MAJOR GEORGE E. GARD. In response to the sentiment, "Our Comrades absent from Roll-Call To-Day," spoke as follows: Sir, comrades, and comrades of the Grand Army of the Republic, ladies and gentlemen: When strong piloted memory returning from the night dip of our brave but fallen defenders, the faded colors of other days and points in the immediate present a living picture full of the records and love of the past, how vivid the recollection of those comrades who have been laid to rest in the cemetery, where a platform had been prepared, an organ, seats, flags, etc., etc. The exercises were very good; a very large number of Union soldiers were beautifully decorated, and the Post with many friends then proceeded to Anaheim to hold similar services in that place and cemetery. Well done, San Diego Post, No. 17, G. A. R. of Santa Ana.

Again we stand, inch by inch, the possession of disputed ground, red with gore and covered with the dead and dying, as through blaze of powder and curling smoke, and armor, and glitter of bayonets, and flash of sword, breast bared to breasts, alike defiant and fearless, brave men as ever the brightest orb of heaven shone upon, struggling on in that fearful combat of destruction until gracious night catches up and suspends her mantle of darkness over the awful scene, and so on in imagination we are led through battles and repulses, assaults and victories, to the final surrender where the triumph of the Union arms vouchsafed us an undivided country, and established the principle, that under the Constitution the national government is, and must be, supreme.

Then follow, my friends, the clove masked batteries that from the lofty mountain's side hurled forth their whirling messengers of death. Again we stand, inch by inch, the possession of disputed ground, red with gore and covered with the dead and dying, as through blaze of powder and curling smoke, and armor, and glitter of bayonets, and flash of sword, breast bared to breasts, alike defiant and fearless, brave men as ever the brightest orb of heaven shone upon, struggling on in that fearful combat of destruction until gracious night catches up and suspends her mantle of darkness over the awful scene, and so on in imagination we are led through battles and repulses, assaults and victories, to the final surrender where the triumph of the Union arms vouchsafed us an undivided country, and established the principle, that under the Constitution the national government is, and must be, supreme.
